SUMMARY

Computer Science Engineering undergraduate with hands-on experience in Java, Full Stack Development, AI-powered applications, and software engineering, gained through internships, hackathons and academic projects. Passionate about building scalable software, solving complex problems, and contributing as a Software Engineer while continuously learning and delivering high-quality solutions.

EDUCATION

Bachelor of Engineering (BE) in Computer Science and Engineering

Jain College of Engineering and Technology • Hubballi, Karnataka • 2024 - 2027 • CGPA : 8.36 [till 6th sem]

Diploma in Computer Science and Engineering

JSS K.H.Kabbur Institute of Engineering • Dharwad, Karnataka • 2021 - 2024 • CGPA:9.20

EXPERIENCE

Intern - Full Stack Development

Athreya Technologies Private Ltd Hubli, Karnataka **January 2024 - May 2024**

- Developed a full-stack web application using **Java, Spring Boot, JSP, HTML, CSS, and JavaScript.**
- Collaborated with the development team to design and implement responsive, user-friendly interfaces across multiple devices.
- Utilized Git and GitHub for version control, collaborative development, and efficient code management.
- Performed debugging, testing, and code optimization to improve application reliability and performance.
- Enhanced cross-browser compatibility by optimizing CSS and JavaScript, ensuring a consistent user experience across major web browsers.

SKILLS

Programming Languages:	C, Java, Javascript, Python, SQL
Frontend:	HTML5, CSS3, React.js
Backend:	Node.js, Express.js, REST APIs
AI / ML:	OpenCV, TensorFlow, PyTorch
Tools / Platforms:	Git, GitHub, Visual Studio Code, Eclipse,
Databases:	MySQL, MongoDB

PROJECTS

Multi-Agent Research Paper Assistant [Ongoing Project]

- Developing an AI-powered Multi-Agent Research Paper Assistant to automate the retrieval of relevant research papers using semantic search techniques.
- Designing a scalable multi-agent architecture for paper retrieval, summarization, comparative analysis, and research gap identification.
- Integrating Natural Language Processing (NLP) and AI models to accelerate literature reviews and support research-driven decision-making.

VisioText - Medical Image to Text Conversion

- Developed an Al-based system to automatically generate descriptive clinical reports from medical images (X-rays, CT scans, MRIs).
- Used CNN architectures for image feature extraction and Transformer models for text generation.
- Demonstrated significant potential for improving healthcare efficiency and supporting diagnostic decision-making.

CivicTrack — Smart Civic Issue Reporting Platform

HackArena 2K26 • April 2026 - April 2026

- Developed a full-stack civic issue reporting platform with React, Supabase, and Firebase Authentication.
- Implemented GPS-based issue reporting, authority dashboard, interactive maps, and complaint analytics.
- Won 2nd Runner-Up at HackArena 2K26, organized by Jain College of Engineering & Technology.

Pet Paradise - Full-Stack Web Application

Athreya Technologies - Hubli, Karnataka

- Developed a responsive E-Commerce Pet Shop Management System of pets selling and pets accessories online to streamline daily operations like inventory, sales, and customer management for pet shops.
- Addressed key challenges such as manual record-keeping, inefficient inventory tracking, and limited customer engagement by building an integrated web-based solution.

CERTIFICATIONS

TCS ION Career Edge - Young Professional

TATA Consultancy Services ION • October 2025

Full Stack Development: Introduction

Infosys SpringBoard • July 2023

AWARDS & HONORS

Achieved First Prize in MINDTECH MYSTERY QUIZ IN "ADVITIYA 2024" with Cashprize Rs.5000

KLE Institute of Technology, Hubli

HackArena2k26 - 3rd Place Winner

Jain College of Engineering and Technology, Hubballi • 2026

- Secured 2nd Runner-Up (Rs.3,000 cash prize) among multiple teams in an Inter-College Hackathon.
